

POWER READY LLC

4121 S. SHERIDAN STREET, TULSA OKLAHOMA (918) 712-5300 powerready.net

The **POWER SAVER** is POWER READY's state of the art in line energy savings capacitor;

1) It increases the power curve by 10% to 25% of your electrical supply, with phase clean up of the electricity. Resulting effect is a drop in wattage usage to run the same induction devices, as seen to the left, with considerable electrical cost SAVINGS.

2) It is an electrical systems SURGE PROTECTOR.

3) It results in all motors running 80% to 85% cooler, extending their life, resulting in replacement cost savings.

POWER SAVER:

Is available for both *single phase* home use and *three phase* industrial, commercial, oil and gas applications (including high electrical usage ESP's)

Purchase cost receives a 30% tax credit and POWER READY is Green Country's exclusive full service Dealer for POWER SAVERS and standby Generator Systems.
